

DSC19

MAPAM

Packaging Machines

DSC19 is a semi-automatic doser suitable for dosing powdery products and fine grains. Complete with conical hopper with product presence sensor and relative mixer ingrated with adjustable speeds according to the needs related to the processed product. The movement of the central screw is entrusted on a brushless motor for constant control over the dosage of the product.

Through the touch screen panel, placed in front of the operator, it will be possible to select the best parameters relating to the dosage need (speed, acceleration, etc...) which can be memorized and recalled using the software which allows them to be divided into recipes programmables. With height-adjustable support surface will be easy the location of the bag/jar to be filled.

TECHNICAL DATA

- Mechanical speed:
10 /20 min (the speed can change based on the kind of product used)

No compressed air required.

- Power supply voltage:
400V +/- 5%
- power supply: 3+N+GND
- Command voltage:
24 VDC
- Signal tension:
24 VDC
- Power absorbed:
1 KW
- Current consumption:
4 A

DIMENSION AND WEIGHT
mm 850 x 1100 x 2400
kg. 150
