

PM14

MAPAM

Packaging Machines

The PM14 is a semi-automatic weigher which, complete with hopper, adjustable speed vibrator and load cell, allows you to quickly and accurately weigh a very wide range of products. With the PM14 it is possible to manually pour the product to be packaged into the hopper

or through various types of automatic loading systems and by selecting the dedicated recipe, previously saved via the intuitive touchscreen panel on which all the management parameters are available, it will be possible to weigh and fill preformed bags, jars or boxes.

TECHNICAL DATA

- Mechanical speed: 6 /12 min
- Operating air pressure: 6 bar
- Power supply voltage: 230 VAC
- Command voltage: 24 VDC
- Voltage signals: 24 VDC
- Power consumption: 0,2 KW
- Current consumption: 1 A

DIMENSION AND WEIGHT
mm 900 x 910 x h2100
kg. 98
